

Segiru JIMOH

Frontend Developer

✉ jimohsegiru@gmail.com

🏠 SSQ08 Federal Government College Ogunu rd. Warri, Delta State.

📅 Date of birth 12/02/1999 🇳🇬 Nigerian

💻 Open to remote work 📄 EFR63727AA45

📍 Nigeria 📞 +234 810 141 5190

👤 Single

Eager to augment my HTML and CSS prowess, I am on a trajectory to master JavaScript and React, enhancing my capacity to contribute to cutting-edge projects. With a year of hands-on experience, I bring a collaborative spirit and a commitment to continual growth. Ready to embark on dynamic teamwork, I aspire to bring fresh perspectives and technical finesse to elevate frontend development endeavors. Let's build the future of web experiences together.

Education

- **B.sc Computer Sciences**
From September 2019 to November 2022
Ambrose Alli University Ekpoma, ED, Nigeria
- **Certificate of Completion (Meta Frontend Development Course)**
From August 2022 to April 2023 Coursera Online School
- **Certificate of Completion (Responsive web design)**
From November 2022 to January 2023

Work experience

- **EdgeLedger Website Project**
From May 2023 to June 2023 Self-employed Remote
Contributed to the fintech revolution by developing the EdgeLedger website. Employed HTML, CSS, and JavaScript to design a cutting-edge platform that seamlessly merges functionality with aesthetics. Ensured a clean and professional aesthetic, reflecting the precision and expertise synonymous with EdgeLedger.
- **Google Clone Project**
From June 2023 to July 2024 Self-employed Remote
Captured the essence of simplicity in web design with the Google Clone project. Employed HTML and CSS to recreate the minimalist Google search page UI. Ensured responsiveness, allowing users to enjoy a consistent and elegant search experience on any device.
- **Gmail Clone Project**
From July 2023 to August 2023 Self-employed Remote
Replicated the intuitive Gmail user interface through the Gmail Clone project. Developed with HTML and CSS, this project emulates the original design, showcasing meticulous attention to detail. Implemented responsive design for a consistent user experience across different devices.

Languages

English

Assets

Work experience

- **Netflix Clone Project**

From August 2023 to September 2023 Self-employed Remote
Showcased cultural richness with the Netflix Clone project, replicating the Nigerian server Netflix homepage. Built with HTML, CSS, and JavaScript, this project offers a faithful recreation of the interface. Implemented responsive design to ensure an engaging and immersive experience on all devices.

- **X(twitter) Clone Project**

From September 2023 to October 2023 Self-employed Remote
Emulated the original X web app UI through the X Clone project. Utilized HTML and CSS to recreate the intricate design, emphasizing responsiveness for a seamless user experience. This project showcases adaptability and attention to detail in replicating complex interfaces.

- **Omnifood Website Project**

From October 2023 to November 2023 Self-employed Remote
Revolutionized the food delivery experience through the Omnifood website. Utilized HTML, CSS, and JavaScript to create a visually stunning and user-friendly platform. Implemented responsive design principles for seamless access on various devices, ensuring an optimal user experience.
